ABA certificates and diplomas have long been recognized industry-wide.

Either as stand-alone courses to meet immediate needs, or as important initial steps along a financial services career path, ABA offerings enhance the skills of your staff and your organization's position in the marketplace.

Fraud management professionals face an increased burden to detect and prevent fraud losses against customers and their institution. The ABA Certificate in Fraud Prevention fills a training gap within many institutions and helps both new and experienced financial crimes professionals establish and maintain a fraud management program with sufficient internal and external controls. It provides in-depth training on the applicable U.S. laws and regulations governing fraud and an overview of the various types of criminal behavior commonly used against banks.

The **ABA Certificate in Fraud Prevention** is an excellent refresher for experienced financial crimes professionals who wish to take the Certified Fraud and AML Professional (CAFP) exam, and may be required for those individuals with less than five years' experience in the field.
